Ice making and distribution business

This well-established business is based in Plettenberg Bay and has a well-established client base predominantly in the area. The business is currently based on a smallholding just off the airport road, and the buyer will need to relocate the equipment to their own suitable premises. The seller is willing to allow for up to a year for the successful buyer to rent whilst sourcing new premises. The equipment consists of several ice-making machines, freezers, water purification systems, and a refrigerated delivery vehicle which is currently financed. There are also walk-in freezers which are easily dismantled and reassembled. Contact me for further
